

10238 East Hampton Avenue – Suite 212
Mesa, AZ 85209

It was a huge loss for many former FIG patients on Dec 7, 2007 when they closed their doors and filed bankruptcy. 400+ staff lost their jobs and thousands of patients were left with no alternative for the treatments they paid for. We at East Valley Women's Skin and Laser Group would like to offer a solution similar to the one offered for Houston Clients.

Our nurse practitioner has 1.4 years experience with Advanced LipoDissolve/FIG and has access to the same formula you purchased with them. If you can show receipt of what you actually purchased or answer a few simple questions regarding your treatments we have the following offers available to you.

Offer 1

We will continue treatments to existing FIG patients for the cost of an office visit which is \$100. You will not be asked to pay in advance for future treatments, simply pay for each office visit until you have reached your goals. Whether you were treating one area or three areas you may be treated for the \$100 fee as long as those areas were previously purchased at FIG. (Additional areas may be purchased at regular pricing). This offer will allow you to continue your treatments and get your results at a fraction of your original cost and you will still be eligible to seek refunds from FIG through their bankruptcy proceedings. For example, if you paid \$6000 for 3 areas and you have been treated twice, you have probably not yet seen any major results as it takes an average of six treatments to see results. If you continued with 4 more treatments at the cost of \$100 for each office visit, you could get your \$6,000 worth of results for only \$400.

Offer 2

As lipo dissolve is a service we already offer at East Valley Women's Skin and Laser Group, we are interested in promoting these services to new patients, as well as taking care of former FIG patients. If you refer a patient who purchases a Lipo Dissolve package we will waive your office visit fee up to \$500.

To schedule an appointment please call (480) 889-2623.
